

MUF50

SWIT®

Portable Travel Tripod

A light weight travel tripod with smooth fluid head of 5kg load, 4-sections, 43-149cm height.

5kg Load Fluid Head

MUF50 tripod comes with a 5kg load fluid head to allow smooth 360° pan, -75°~+90° tilt angle motion, with 1/4" screw bolt.

Dynamic Counter Balance

The fluid head provides continuously smoother tilt movements, and the counter balance force is dynamic according to the load on the head.

Low Angle Shooting

The center column can be up and down adjusted and supports reversed install for low angle shooting.

One Key Leg Angle Adjustment

Release the locker you can quickly adjust the leg angle, and on the end of center column there's a hook to add counter weight and enhance the tripod stability.

Anti-pinch Buckles, Rubber feet

The anti-pinch designed twist buckles and the retractable rubber feet can switch from padding or spikes.
