

Mic

Product Parameter

Sensor :HD CMOS Sensor
Lens:4P lens 1920*1080
DSP:High Speed Controller
Video Recording:AVI , CIF Mode
Interface:USB 2.0 & USB 1.1 compatible
Power Supply:5V (USB port)

Material:ABS plastic, Nanometer lens
Wire material :1.5 meters fine copper
Microphone:High quality integrated USB Mic, 10 meters effective distance
Output format: USB2.0 uncompressed YUY2
Plug: USB2.0 High Speed (Isochronous)
Imaging distance: 50mm to infinity
Flicker control: 50HZ
Static picture storage format: BMP/JPG
Dynamic picture storage format :AVI

Get started

1.Plug it into one of the USB ports of your computer. If you are using a desktop PC, it will be better to plug it into the USB ports at the back of computer case instead of those in the front.

2. It is a plug & play webcam, so there is no extra driver needed. Please note that there is no icon or message for this webcam after it is successfully installed, but it does work.
3. To use it, you may need a third-party software like Skype.

How to keep it in place?

1. Open the webcam stabilizer to a proper angle

2. Place it on the computer screen using the webcam stabilizer
